Precision Meters
Postal Suite 414
Private Bag X16
Postnet
Constantia
7848

Dear Sir

SALE OF UNAPPROVED WATER METERS

The following meters have been visually examined for compliance to the requirements of SANS 1529-1:2006 Edition 2.3.

ASM Model LXLC50A with a bore size of 50 mm
ASM Model LXLC80A with a bore size of 80 mm
ASM Model LXLC100A with a bore size of 100 mm

As the approval of the abovementioned water meters cannot be accommodated, Precision Meters are hereby permitted in terms of Clause 7 of SABS 1529-1 and Sections 23(2) of the Trade Metrology Act, to supply the meters for use provided they are covered by calibration certificates, issued by the manufacturer, which shall indicate that they are within tolerances specified in SABS 1529-1. A copy of this certificate shall be given to the purchaser and a copy retained by you for inspection purposes.

If the scope of your laboratory includes the verification of meters of this diameter you will be permitted to issue verification certificates.

Please note that once these meters are approved they will have to be verified in terms of Annexure B of SABS 1529-1, as there is no provision for an exemption.

Yours faithfully

KJ Temba
Director
Trade Metrology
