TO WHOM IT MAY CONCERN

Dear Sir/Madam;

RE: NOTE OF RECOGNITION

The Botswana Bureau of Standards (BOBS) issues this note to indicate our recognition of the National Regulator for Compulsory Specifications (NRCS) Certificate of approval - SA1508 issued to Precision Meters, Unit 4B Panther Park, 11 Berkely Road, Maitland, in respect to the manufacturing of the "ASM Model LXH, LXHS" mechanical water meter. Precision Meters want to supply their products to Botswana.

NRCS has confirmed the authenticity of the above-mentioned certificate issued to Precision Meters for their products' compliance with the requirements of the following Standard:

Certificate No.	Standard	Scope of Certification
SA1508	SANS 1529-1 : 2006 Edition 2.3	Water meters for cold potable water Part 1: Metrological characteristics of mechanical water meters of nominal bore not exceeding 100mm ("ASM Model LXH, LXHS" mechanical water meter)

To the best of our knowledge, the above certificate give evidence that Precision Meters' performance is being monitored and verified by NRCS through regular inspections and the product sample testing. On the basis of the above information, BOBS is issuing this note of recognition. However, we wish to make it clear that should the relevant authorities or customers require these to be monitored by us Precision Meters would be required to allow BOBS to select samples for testing against the above-mentioned standard.

This note of recognition is valid until **30th May 2014**, and it only applies to "ASM Model LXH, LXHS" mechanical water meter specified on the certificate of approval - SA 1508. Products covered by this note of recognition should bear the address of the manufacturer traceable to the certificate No. SA1508.

Please also note that this note of recognition is simply for information where it might be required. It would not make BOBS party to a contract between **Precision Meters** and its associates or other organizations.

Thank you

Adam E. Schuhula
